

Global Care

About Us

TPL Life Insurance Limited is a subsidiary of TPL Corp. which has diversified investments across multiple business segments. TPL Life is a leading Insurtech catering to Pakistan's Life and Health insurance needs by offering cutting edge Insurance solutions.

Our core strength pivots on delivering seamless and innovative Life and Health Insurance solutions for our customers, and continuous investments in cutting edge technology and market intelligence have allowed us to go first-to-market with various customized Life and Health insurance solutions, for both individuals and corporations.

The TPL Life Mobile App is one of the leading Insurtech platforms in Pakistan that offers its customers an end-to-end insurance experience from policy issuance, to claim lodging, and renewals.

The company operates in the following segments:

- Corporate Life and Health Insurance
- Individual Life and Health Insurance
- Micro Insurance
- Mass Retail
- Banassurance

The Health Bank is an innovative global health management company that specializes in providing individuals, families and corporate clients, personalized health and wellness services. The Healthcare group owns and manages multiple entities in UAE, Singapore and Pakistan .

Through The Health Bank Nexus, our members are connected to an unparalleled global network of over 25,000 world-renowned physicians, hospitals, research, technology and cutting edge treatments.

Whether you are faced with an urgent health issue, are struggling with an acute or chronic condition, or are interested in cutting-edge preventive health and wellness services, we connect you with the best providers possible. No matter where you are in the world, we are available 24 hours a day 7 days a week.

The company operates in the following segments:

- Healthcare Management
- Wellness and Lifestyle Programs
- Virtual Care
- Telehealth

Global Care

Healthcare in Pakistan has been fragmented, with often a gap in the quality and continuity of care between the Insurance providers, healthcare providers and patients. Resultantly you may spend endless hours self researching, repeated testing, and still end up with lack of verified information. Moreover accessibility to quality care and a personalized approach are often needed to insure that your unique needs are met.

The Solution

Global Care fits in the gaps of the traditional healthcare models of delivery and creates a seamless care experience for our members

Integrated

Providing seamless access to healthcare providers, services, research, and coordination, globally

Personalized

Transforming management and personalization of care through a tailored approach

Innovative

Utilization of innovative care models to ensure members peace of mind
